• Apparel • Workwear • Gifts & Bags • Eco-Friendly • Headwear • Sports • Display

Branding

Branding Solutions

Our dedication to high quality and ever-expanding branding solutions guarantee that we have the right solution for your brand. No matter the product, we can brand it.

Branded clothing is an effective way of increasing your brand awareness, whether it's your staff at an office, conference, or event.

Here are a few of the most popular branding types for Apparel & Workwear:

- Embroidery
- Screen print
- Heat press

Branding Options

Each product has a suggested branding method icon, these are suggestions of the best branding method to use for your products.

Pad printing is done using a silicone pad. It functions as a transfer vehicle, picking up ink from the printing plate, and pressing it directly onto the product.

Screen printing is a printing technique whereby a mesh screen is used to transfer ink onto a substrate. This is the most common method of imprinting on promotional items and apparel.

Embroidery is stitched with a computerised embroidery machine using patterns digitised with embroidery software.

Digital printing is a method whereby the image is printed directly onto the product. This application provides you with a full colour printing option.

This method is achieved by burning the top layer of the substrate with a thin laser beam that cuts through the product creating a lasting detailed logo.

Deboss printing involves creating a die in the shape of a logo that is pressed into the surface creating a permanent sunken design.

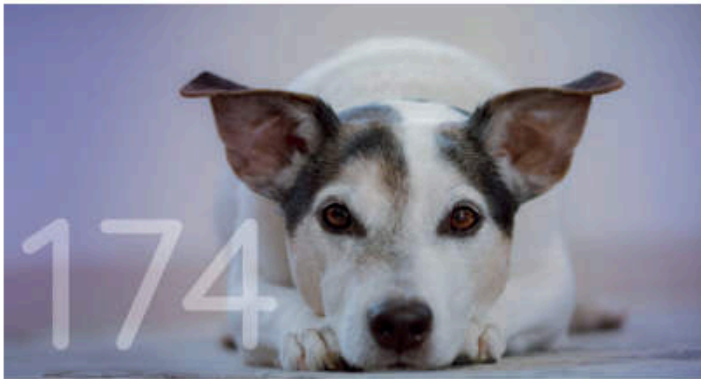

Digital stickers are digitally printed directly onto a vinyl adhesive substrate that can be affixed to a product. This application provides you with a full colour printing option.

Dome printing is digitally printed directly onto a vinyl adhesive substrate that can be cut into a variety of shapes and sizes. The stickers are then coated with a polyurethane to give a dome-like appearance creating a 3D effect.

Writing Instruments

A close-up photograph of a person's right hand holding a sleek, maroon and silver writing instrument, likely a fountain pen or ballpoint pen. The hand is positioned over a white sheet of paper with some faint, illegible handwriting. The person is wearing a brown, textured sweater and several gold rings on their fingers. The background is blurred, showing what appears to be a desk or office environment.

MAKE YOUR SIGNING-OFF, JOURNALING OR
CAPTURING GREAT IDEAS A MEMORABLE
EXPERIENCE WITH OUR QUALITY
MULTI-DESIGN WRITING INSTRUMENTS.

Colours

A photograph of a desk with a light wood grain. On the desk is a white, curved object, possibly a desk organizer or a small table. On top of it are several colorful, abstract, sculptural objects in green, white, and red. In the background, there is a dark, conical object and a wall with faint, abstract line drawings. A dark blue rectangular area is overlaid on the left side of the image, containing the title text.

Colours

A woman with long blonde hair, wearing a dark jacket, is holding a bright flashlight to her forehead. The light from the flashlight is very bright, creating a lens flare effect. The background is a blurred forest scene with trees and foliage, suggesting an outdoor setting at dusk or dawn. The overall tone is warm and adventurous.

The background of the entire page is a light blue color. Scattered across this background are three adhesive bandages (band-aids) of a tan or light brown color. One bandage is positioned diagonally in the upper center, another is in the upper left corner, and a third is in the lower right corner. The bandages have a visible woven fabric texture.
