SHAPED FOR WOMEN WHO SHAPE THE WORLD

Sisi Safety Wear is a brand of women-specific PPE that falls within the BBF Safety Group (Pty) Ltd stable.

Established in 2008, Sisi Safety Wear was initially developed to provide a solution for women looking for a safety footwear offering that was suited to the contours of their feet. A decade after its launch, the brand successfully expanded its product offering into workwear and fall arrest, through its careful consideration of the

functional and ergonomic requirements of women working in industry.

The rationale behind the brand and its offering remain as clear today as it was when it started: there is a distinct difference in the anatomy of men and women, and thus the PPE procured should reflect this.

By doing so, women can focus their full attention on the job at hand, increasing their productivity on-site.

PROUDLY SOUTH AFRICAN

All products within the Sisi Safety Wear range are proudly manufactured in South Africa.

SINGLE DENSITY POLYURETHANE SOLE

TOE CAP Steel toe cap | Available in NSTC 53501

CODE: HARN02211

**INJURY-
PREVENTING
ELASTICATED
CHEST STRAP**

FOR WOMEN, THE RISK OF INJURY DOES NOT STOP WHEN THE FALL DOES.
If placed below the bust area, polyester webbing can rise aggressively up and over the bust at the end of a fall, resulting in secondary related injuries to the wearer.

That's why all our Sisi harnesses are fitted with an **ADJUSTABLE ELASTICATED CHEST STRAP** that stretches in the event of a fall, substantially reducing the pressure on the bust area. Furthermore, the chest strap can be moved up and down the shoulder straps, allowing each wearer to place it in the position that is most comfortable to them without compromising on the effectiveness of the harness.
